

Patagonia Expedition Equipment List, 2013

Having the right equipment on your expedition will make almost as much difference to your safety, comfort, and enjoyment as any physical training you do. It is essential that you take the time to acquire the correct gear; don't wait for the last minute to find out your local shop doesn't have your size. This equipment is expensive, but you can often find great sales online and at your local gear store. The purpose of this gear list is to help guide your purchases. Often salespeople in your hometown do not have first hand knowledge of high-altitude climbing, so be sure to balance their advice with what you read here. And do not hesitate to call us for more information on any of these items. We have strived to create a list heavy on detail, but there are always further questions!

For the best personalized shopping experience with a climbing and mountaineering gear expert, contact Alpenglow Sports' Brendan Madigan at 530.583.6927 (w), 530.414.1472 (c), or Brendan@alpenglowsports.com. Located in Tahoe City, CA, Alpenglow Sports is a gear shop dedicated to great customer service and unparalleled knowledge of the products they sell. They either stock or can quickly order everything you might need for your trip. And of course they will be happy to ship to your location if you are not fortunate enough to regularly be in the Tahoe area! Be sure to let them know you are going on an Alpenglow trip. They are very familiar with our expeditions, our gear preferences, and the mountains we climb.

Finally, a note on our recommendations: these are not the only good brands out there. They are products which our guides have used extensively and been happy with. For the safest shopping experience, choose these specific items and you can be confident you have the right tool for the job. Enjoy your shopping!

HEAD

<input type="checkbox"/>	Baseball cap- Bring your favorite baseball cap for shelter from the blazing sun. No white under-brim—the reflection off of it from the sun is blinding.	
<input type="checkbox"/>	Polar fleece or wool hat- A comfortable, warm hat that covers your ears. Make sure that it fits well, and that one of your hats fits under a helmet.	Marmot- Summit Hat Patagonia- Lined Beanie 
<input type="checkbox"/>	Glacier Glasses- Should have very dark lenses (85%+ visible light blocked). Minimal light should come in below, above, or around the sides of the lenses. Glasses with leather/plastic side shields or “bug-style” wraps are best. Ventilation is also important. Be sure to have a retainer strap (Chums or Croakies).	Kaenon- Rhino, Lewi Julbo- Nomad, Explorer 
<input type="checkbox"/>	Headlamp- L.E.D. headlamps are recommended. Make sure they have 3+ bulbs. Bring extra batteries. We highly recommend a tilting lamp.	Petzl- Tikka® XP headlamp Black Diamond- Spot Headlamp 

HANDS

<input type="checkbox"/>	<p>WINDSTOPPER® Gloves- You will rarely take these gloves off. They should be snug-fitting, made of WINDSTOPPER® fleece, and have some sort of reinforced palm. We also recommend (additionally) a thinner liner glove for optimum dexterity.</p>	<p><u>Marmot-</u> Windstopper Glove <u>Black Diamond-</u> Windweight Glove</p> 
--------------------------	--	---

FEET

<input type="checkbox"/>	<p>Liner Socks (2 pair) - A super-thin wicking sock that repels moisture. Liner socks help to reduce the likelihood of blisters. The socks should be thin wool, nylon, or Capilene®. NO COTTON.</p>	<p><u>Bridgedale-</u> Liner sock <u>Patagonia-</u> Ultra Lightweight Hiking Crew Socks</p> 
<input type="checkbox"/>	<p>Hiking Socks (2 pair) - Your everyday sock, good for day hikes, trekking, and in-town. NO COTTON.</p>	<p><u>Bridgedale-</u> Endurance Trekker <u>Patagonia-</u> Midweight Hiking Crew Socks</p> 
<input type="checkbox"/>	<p>Warm Socks (2 pair) - A wool synthetic blend. Pure rag wool socks are not nearly as effective in wicking moisture or retaining their shape and reducing blisters. NO COTTON.</p>	<p><u>Bridgedale-</u> Endurance Summit <u>Patagonia-</u> Ultra HW Mountaineering Socks</p> 
<input type="checkbox"/>	<p>Hiking shoes- These light to mid-weight shoes are for every day use. The ideal shoe is comfortable enough to wear for multiple days and scrambles decently on rock. A Gore-tex lined shoe often stays drier when hiking in rain or snow.</p>	<p><u>Sportiva-</u> Raptor <u>Sportiva-</u> Delta GTX **For those who need more ankle support, a high-top lightweight boot is also appropriate.</p> 
<input type="checkbox"/>	<p>Gaiters- GORE-TEX® or Schoeller® calf-high, durable gaiters are recommended. VELCRO® calf-closure is preferred.</p>	<p><u>OR-</u> Crocodiles® Gaiters <u>Black Diamond-</u>GTX FrontPoint Gaiter <u>Mountain Tools-</u> Insulated Supergaiters</p> 

UPPER BODY

<input type="checkbox"/>	<p>Silkweight- Ultra-light base layer that effectively wicks moisture away from your body and is breathable. Quick-dry is important as well. One light colored shirt is recommended for extremely sunny days. The new wool blends are also an option.</p>	<p><u>Marmot-</u> Lightweight Crew SS <u>Patagonia-</u> Capilene® 1 T-shirt</p> 
<input type="checkbox"/>	<p>Mid-weight (2 pair) - A poly-pro mid-layer that you will never take off. Fitted, lightweight and quick drying. Make sure it is long enough to tuck-in and we recommend zipper collars for more ventilation.</p>	<p><u>Marmot-</u> Midweight Zip Neck LS <u>Patagonia-</u> Capilene® 2 Zip Neck</p> 

<input type="checkbox"/>	<p>Expedition-weight top – Warmer than your mid-weight, but still breathable and lightweight.</p>	<p><u>Marmot</u>- Reactor Full Zip Jacket <u>Patagonia</u>- R2® Jacket</p> 
<input type="checkbox"/>	<p>Warm jacket- A polarguard or fleece jacket. Warmer than your expedition weight top, but not as extreme as your big puffy jacket. Full zip is recommended.</p>	<p><u>Marmot</u>-Baffin Jacket <u>Patagonia</u>- Lightweight R4® Jacket <u>Patagonia</u>- Nano Puff Jacket</p> 
<input type="checkbox"/>	<p>Softshell Jacket (optional) – While we do not require this item, we also know that those that don't have one will wish they did! These jackets are much more breathable than Gore-tex, but still effectively block wind and light precipitation. A windshirt is also an effective option for this optional layer.</p>	<p><u>Marmot</u>- Super Hero Jacket <u>Marmot</u>- DriClima Jacket <u>Patagonia</u>- Guide Jacket</p> 
<input type="checkbox"/>	<p>Gore-Tex® jacket- A lightweight, waterproof and breathable jacket WITH A HOOD that can withstand extreme weather conditions. Make sure you have pit-zips and if you are using an old jacket, re-waterproof it. PacLite® is preferred for lightweight.</p>	<p><u>Marmot</u>- Minimalist Jacket <u>Patagonia</u>- Stretch Ascent Jacket</p> 

LEGS

<input type="checkbox"/>	<p>Quick-dry shorts- Throw these on under other layers for when the sun begins to beat, or you have a sudden urge to jump in a glacial lake. Lightweight, durable and comfortable. NO COTTON.</p>	<p><u>Marmot</u>- VIM Short <u>Patagonia</u>- Baggies™ shorts</p> 
<input type="checkbox"/>	<p>Mid-weight (2 pair) -- Fitted, lightweight and quick drying. The mid-weight will be a base-layer that will get you through a wide range of temperatures.</p>	<p><u>Marmot</u>- Midweight Bottom <u>Patagonia</u>- Capilene® 2 Bottoms</p> 
<input type="checkbox"/>	<p>Soft Shell pants- You will spend most of your days in these pants. Choose Schoeller® or a soft-shell equivalent. Breathable + water-resistant. These pants should have an ankle zip so they will accommodate your mountain boots.</p>	<p><u>Marmot</u>- Scree Pant <u>Patagonia</u>- Alpine Guide Pants</p> 
<input type="checkbox"/>	<p>Gore-tex® pants- Your waterproof bottom layer for extreme weather days. Make sure you have water-resistant zippers, crampon patches + good pockets.</p>	<p><u>Marmot</u>- Minimalist or Oracle Pant</p> 

GEAR

<input type="checkbox"/>	<p>Backpack- A mid-size, all-purpose pack for all day climbs, city days and trekking (30-50 liters) Streamlined, neat and lightweight.</p>	<p><u>Marmot-</u> Centaur 38 <u>Black Diamond-</u> Mission 50</p> 
<input type="checkbox"/>	<p>Hydration System- Must have shoulder straps + be insulated. Should carry 70-100 ounces. This will be worn <u>under</u> your gore-tex layer (not in your pack) on summit days, so choose the lowest profile model you can find.</p>	<p><u>CamelBak-</u> Zoid</p> 
<input type="checkbox"/>	<p>Duffle Bag- At least one bag should be extremely durable, waterproof, and big! You should feel comfortable leaving it in a puddle for several hours. Remember dry clothes are hot commodities in the mountains! Large enough to fit everything you own, plus what you anticipate buying.</p>	<p><u>Marmot-</u> Long Hauler Duffle Bag XL <u>Gregory-</u> Long Haul™ Duffle XL or XXL</p> 
<input type="checkbox"/>	<p>Crazy Creek- Bring a lightweight camp chair with no frills. A luxury that you will be glad that you brought. Can also be used as an extra sleeping pad.</p>	<p><u>Crazy Creek</u></p> 
<input type="checkbox"/>	<p>Sleeping Pad- 72 inch long inflatable pad required. Make sure you also purchase and bring a repair kit + bag for the sleeping pad.</p>	<p><u>Therm-a-rest-</u> ProLite™ Plus <u>Therm-a-rest-</u> NeoAir</p> 
<input type="checkbox"/>	<p>Sleeping Bag- Rated to at least 0 F. Choose an 800+ Fill Premium Goose Down bag. Make certain that the sleeping bag is the right length. DON'T FORGET A COMPRESSION SACK FOR THE SLEEPING BAG. Many climbers also like a silk liner.</p>	<p><u>Marmot-</u> Couloir <u>Granite Gear-</u> Compression stuff sack</p> 
<input type="checkbox"/>	<p>Trekking poles- Must be collapsible poles. Make sure that they are durable, lightweight + easily adjustable.</p>	<p><u>Black Diamond-</u> Contour Trekking Pole</p> 

MISCELLANEOUS:

- PASSPORT (with visa, if necessary)
- TRAVEL WALLET POUCH (waist or neck)
- 2 LUGGAGE LOCKS
- LEATHERMAN/ SWISS ARMY KNIFE
- PLASTIC BOWL, SPOON + MUG

- IPOD
- EAR PLUGS
- JOURNAL/ BOOKS/ GAMES FOR PERSONAL ENTERTAINMENT
- LANGUAGE PHRASE BOOK OR DICTIONARY
- CAMERA (with all necessary accessories)
- BINOCULARS
- SANDALS (flip-flops, chacos or tevas)

A NOTE ON PACKING

For your international flights we recommend that you pack all of your equipment in your two duffle bags. Do not simply pack your backpack (since its straps can be damaged by baggage handling machines). It is important to lock these bags for their trip. Depending on airport, you may be able to put your travel locks on after they have been searched. If not, lock the bag with zip ties. If the TSA cuts off the zip tie to search your bag, they will

replace it. You will still need travel locks to lock your bags in the hotel and in Basecamp. Generally, you will take one duffle to Basecamp, and leave one in the hotel with your belongings for town.
